Test Comments: Steve and Brent are very surprised by the yields they are seeing in their fields. As Steve stated, "When it rained, the plants used it all." Rain was limited but timely and made this plot very good. Plants were well matured with long girthy ears at harvest. Very little leaf disease was observed. Plant stalks were weak here. Blowing wind broke newly exposed plant stalks just ahead of combine.

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
