**Test Comments:** *This site was a slightly rolling and very representative of the surrounding area. Planting conditions were nearly perfect. The stand was very good and very little lodging was noted at harvest. Ears were filled with kernels to the tips and for most part were very large. Very little leaf disease noticed in September. Rainfall was more than ample and lowered yield in the early test being on lower ground.*

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
