TEST COMMENTS: **USE RESULTS WITH CAUTION. Slight dicamba injury here REDUCED dicamba sensitive (RR2Y) bean yield. COMPARE RESULTS OF DICAMBA TOLERANT BEANS ONLY (i.e. RRX). Near perfect planting conditions at this flat uniform site. Very good germination and overall stand. Plants stood well despite a rain delayed harvest. Harvest was relatively easy as the beans and stems were very dry.**

† See last page for abbreviation descriptions. Results in **bold** are significantly above test average by LSD (0.10). **ns** = column values not significantly different.
