HARVESTED - STAND:	Oct 14 165.0 /A

TEST COMMENTS:

Most varieties achieved really good stands and the plot was very uniform during the early season. Plant heights ranged from 36-48" tall and had a nice pod set all the way up the plant. Everything was standing good even though most stems were smaller in diameter, making harvest easy. There was an area in the rear of the plot that was affected by white mold.
