TEST COMMENTS:

Planting conditions were very good and plants emerged strong. This location held what moisture it received and performed well. Plants were tall and ear set was high on the stalks. Ears were large and girthy with large seed depth. Plants stood strong with no lodging issues, and cobs were strong and made shelling the big ears easy. Outstanding plot to look at, plant leaves showed some rust, eyespots, and a small amount of tar spots. Mike informed me that his records showed 27 inches of rainfall this year with 13.4 during planting to harvest.
