

HIGH YIELDING PERFORMER THAT MOVES WELL ACROSS ALL REGIONS

- Very good emergence & stress tolerance
- Excellent PRR tolerance
- PI 88.788 & Stem Canker resistant

AGRONOMIC CHARACTERISTICS

| | |
|-------------------|-----|
| Emergence..... | 4 |
| Standability..... | 3.5 |

ADAPTABILITY

| | |
|-------------------------|---|
| Light Soil..... | 4 |
| Heavy Soil..... | 4 |
| Stress Tolerance..... | 4 |
| Yield for Maturity..... | 5 |

PLANT HEALTH

| | |
|--|-------------|
| Sudden Death Syndrome..... | 3.5 |
| SCN Tolerance..... | Resistant |
| SCN Marker..... | PI 88.788 |
| Phytophthora Root Rot Gene Resistance..... | NG |
| Phytophthora Root Rot Tolerance..... | 4.5 |
| Iron Chlorosis..... | 3 |
| Brown Stem Rot..... | Susceptible |
| White Mold..... | 3 |
| Stem Canker..... | Resistant |
| Frog Eye..... | 3 |

Phytophthora Root Rot Gene Resistance

Rps 1a = Resistance to races 1-2, 10-13, 15-19
 Rps 1c = Resistance to races 1-3, 6-11, 13, 15, 17, 21, 23, 24
 Rps 1k = Resistance to races 1-11, 13-15, 17-18, 21, 22
 Rps 3a = Resistance to races 1-5, 8, 9, 11, 13, 14, 16, 18, 23, 25
 NG = No specific gene
 Ha, Hc, and Hk = Heterozygous for specific gene

Phytophthora Field Tolerance

5 = High Tolerance 3-4 = Acceptable Tolerance 1-2 = Low Tolerance

PLANT CHARACTERISTICS

| | |
|------------------|-----------------|
| Flower Color | Purple |
| Pubescence Color | Gray |
| Pod Color | Brown |
| Hilum Color | Imperfect Black |
| Plant Height | Medium Tall |
| Plant Type | Intermediate |

NOTES

- 5 = EXCELLENT/RESISTANT**
- 4 = VERY GOOD**
- 3 = AVERAGE**
- 2 = BELOW AVERAGE**
- 1 = POOR/HIGHLY SUSCEPTIBLE**

**All ratings presented are from past performance and do not ensure future results.*

Corteva Agriscience is a member of Excellence Through Stewardship® (ETS). Corteva Agriscience products are commercialized in accordance with ETS product launch stewardship guidance and Dow AgroSciences Product Launch Stewardship Policy. No crop or material produced from this product can be exported to, used, processed or sold across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. For further information about your crop or grain marketing options, contact DAS at 877-4-TRAITS (877-487-2487). Information regarding the regulatory and market status of agricultural biotechnology products can be found at: www.biotradestatus.com.

Seeds containing the Enlist, Herculex and PowerCore traits are protected under numerous US patents. Seeds containing patented traits can only be used to plant a single commercial crop and cannot be saved or replanted. You acknowledge and agree to be bound by the terms and conditions of the following documents in effect at the time of planting of this seed: (i) the Technology Use Agreement and (ii) the Product Use Guides for all technologies in this seed, including the Herbicide Resistance Management (HRM), and Use requirements detailed therein (www.corteva.us/Resources/trait-stewardship.html). To plant Enlist, Herculex and PowerCore seed, you must have a limited license from Corteva Agriscience. In consideration of the foregoing, Corteva Agriscience grants to the Grower the limited license to use its technology to produce only a single commercial crop in the United States under the terms and conditions set forth in the Technology Use Agreement in effect at the time of planting of this seed.

Always read and follow herbicide label directions prior to use: Enlist® products contain the Enlist trait that provides crop safety for use of labeled over-the-top applications of glyphosate, glufosinate and 2,4-D herbicides featuring Colex-D® technology when applied according to label directions. Following burndown, the only 2,4-D containing herbicide products that may be used with Enlist™ crops are products that feature Colex-D technology and are expressly labeled for use on Enlist crops. 2,4-D products that do not contain Colex-D technology are not authorized for use in conjunction with Enlist products. Enlist corn contains genes that confer tolerance to 2,4-D and -fop herbicides. 2,4-D and -fop herbicides will damage or kill crops that are not tolerant to 2,4-D or -fops.

IRM – Properly managing trait technology is key to preserving it as a long-term crop protection tool. Growers who fail to comply with IRM requirements risk losing access to this product. To help preserve the effectiveness of B.t. corn technologies, growers planting B.t. corn technologies are required to follow an IRM Plan. Consult the Corn Product Use Guide for appropriate refuge configuration options. Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed as set forth in the Technology Use Agreement and Product Use Guide. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements. For complete details on IRM requirements for hybrids with Bt technology, including refuge examples and important information on the use of insecticides on refuge and Bt corn acres, please consult appropriate Product Use Guide. Go to www.corteva.us/Resources/trait-stewardship.html to download the latest Corteva Agriscience Corn Product Use Guide.

Enlist E3® soybean seeds containing the Enlist® trait can only be used to plant a single commercial crop. It is unlawful to save and replant Enlist E3® soybeans. Additional information and limitations on the use of these products are provided in the Corteva Agriscience Technology Use Agreement and Enlist® Soybean Product Use Guide. U.S. patents for Corteva Agriscience technologies can be found at the following webpage: www.corteva.us/Resources/trait-stewardship.html.

Enlist Duo® and Enlist One® herbicides are not registered for sale or use in all states or counties. Contact your state pesticide regulatory agency to determine if a product is registered for sale or use in your area. Enlist Duo and Enlist One are the only 2,4-D products authorized for use with Enlist crops. Consult Enlist herbicide labels for weed species controlled. Always read and follow label directions. Enlist E3® soybeans were jointly developed by Corteva Agriscience and MS Technologies, LLC. ™ Enlist, Enlist E3, the Enlist E3 logo, and Colex-D are trademarks of Corteva Agriscience. PowerCore® multi-event technology developed by Corteva Agriscience and Monsanto. Roundup®, Roundup Ready®, Roundup Ready 2 Technology and Design, and PowerCore® are registered trademarks of Monsanto Technology LLC. Liberty Link® and the Water Droplet Design® are registered trademarks of BASF. Excellence Through Stewardship is a registered trademark of Excellence Through Stewardship.
